99.997%

WCH Cable guarantees the good quality. WCH Cable production lines manufacture cables and wires with oxygen-free pure copper conductors only, of which the purity is up to 99.997%. Higher copper conductor purity makes the cables and wires with perfect electrical conductivity, wonderful processing performance, good corrosion resistance and so on.

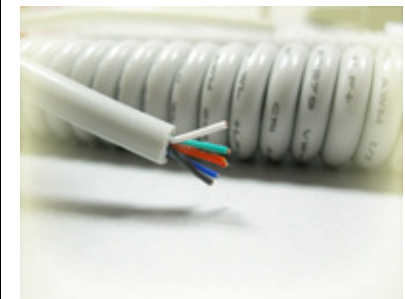

UL Cable, Type: Multiple-conductor, thermoplastic insulation.

100%

WCH Cable manufacturing lines implement ISO9001:2008 Quality approval management. Most importantly, to assure of environment-friendly production, WCH Cable proudly announces the whole factory wins the Hazardous substance management approval QC080000. All Cables and Wires provided by WCH Cable are hazardous substance free. WCH Cable Guarantees all products 100% complies with RoHS directive.

UL Cable, Type: thermoset insulation, (3-)Single-conductor, (4-)Multiple-conductor.
